

THYROID FUNCTION TEST REPORT

Patient Name: Vijay

Age: 51

Sex: Male

Date of Test: 2025-05-03

Test	Result	Reference Range	Units	Interpretation
TSH (Thyroid Stimulating Hormone)	2.1	0.4 - 4.0	μIU/mL	Normal
Free T3 (Triiodothyronine)	3.2	2.3 - 4.2	pg/mL	Normal
Free T4 (Thyroxine)	1.2	0.8 - 1.8	ng/dL	Normal

Summary

- The TSH level is within the normal range, indicating that thyroid function is likely normal.
- Free T3 and Free T4 levels are also within normal limits.
- No immediate action is necessary. Follow-up with your healthcare provider if symptoms arise.
